Test scenarios for the Quote-Accepted page

Feature: Xero Quotes Page

   In order to test the Xero Quote page functionalities

   As a Registered user

   I want to specify the features of Quote page

Scenario: **Verify the Amount of each Items is Quantity*Price in the Quote**

   Given the Quote is Accepted

   Then user gets Quantity and Price in the item list

   And Amount is equal to Quantity into Price

Scenario: **Verify the Subtotal of all items is total of Amount price in the Quote**

   Given the Quote is Accepted

   Then user gets Amount for each item in the list

   And Subtotal is equal to total Amount price

Scenario: **Verify the Total GST amount for all items in the Quote**

   Given the Quote is Accepted

   Then user gets GST tax rate for each item in the list

   And user get Subtotal of the Quote

   And Total GST is equal to Subtotal into GST tax rate

Scenario: **Verify the Total value of the Quote**

   Given the Quote is Accepted

   Then user gets Total GST

   And user get Subtotal of the Quote

And Total value of the Quote is equal to Subtotal + Total GST

Scenario: **Verify user can click on 'Create invoice' button on Quote Accepted state**

Given the Quote is Accepted

When user click on the Create invoice button

Then Create invoice pop-up message is displayed

When user click on the 'Create' button in the pop-up

Then user is on New Invoice page

Scenario: **Verify user can print the Quote as PDF**

Given the Quote is Accepted

When user click on the Print PDF button

Then PDF is downloaded with 'PDF has been printed' message in the screen

Scenario: **Verify user can attach files to the Quote**

Given the Quote is Accepted

When user click on the Attach files button

Then Attachments window is shown

When user click on the 'Select files' button in the window and add a file

Then Added file is displayed in the window

When user click outside of the attachment window

Then User is in Quote page and Attachment button indicates the number of attachments

But Attachment window is not present

Scenario: **Verify user can view the history of the Quote**

Given the Quote is Accepted

When user click on the History and notes

Then History and notes is expanded with records

Scenario: **Verify user can add a note and verify it in the History and notes section**

      Given the Quote is Accepted

      When user click on the Add note link

      Then Add note pop-up window is displayed

      When user type the note on Add note pop-up window

      And User click on the Save button

      Then user is on Quote page

      But Add note pop-up window is not present

      When user click on History and note

      Then added note is displayed in the history list

Scenario: **Verify Customer name link is accessible**

      Given the Quote is Accepted

      When user click on the Customer name listed under Customer label

      Then Customer information page is displayed

Scenario: **Verify 3dots menu and functionality**

      Given the Quote is Accepted

      When user click on the 3dots menu

      Then 3dots menu is displayed

      |Send|

      |Mark as invoiced|

      |Unmark as accepted|

      |Copy to|

      |Delete|

      |Invoice settings|
